

## AIRCRAFT CABLE SCUFF GUARD

- Heavy-Duty Co-Polymer Material
- Leak Proof Cuffs

- Crush Resistance
- Smooth Bore

The MCM Scuff Guard is used to extend the life of 400Hz Aircraft cable assemblies by preventing normal wear and tear on the cable. The heavy duty Scuff Guard is made from a combination of co-polymer materials and has a two-part helically wound construction. The Scuff Guard is available in a wide range of custom colors. Ends are finished with a leak proof seal.
